

Calibration Certificate, or purchase Calibration Equipment?

To comply with Quality Management Systems, ISO 9001, Food Hygiene Directives, and manufacturing and research good practise it is essential that measuring and recording equipment is correctly maintained and calibrated.

At Tempcon we have been leaders in the calibration of digital thermometers and data loggers supplied to food supermarkets for over 25 years – most high streets, railway stations, garages, and out-of-town shopping areas have food supermarkets using thermometers supplied and calibrated by us.

We calibrate temperature measuring and data logging equipment for all types of industry.

Calibration is part of our everyday life. Most Calibration 'periods' are annual

We offer:

• **Calibration at Tempcon using test equipment calibrated by, and traceable to, UKAS**

This is the lowest cost calibration certificate, and conforms to most Quality Management System needs including those of Food Retail and manufacturing.

Your equipment need only be with us for a few days and is returned to you together with a Calibration Certificate valid for 12 Months.

• **UKAS Calibration Certificate.**

Forward your equipment to us. We provide a full validated UKAS Calibration Certification meeting your specific needs.

• **Do-It-Yourself**

Why not consider purchasing portable calibration equipment which will enable you to calibrate your own equipment and products in-house, or on-site, whatever the quantity involved.

Precise, accurate, wide ranging DRY BLOCK calibrators are supplied with a UKAS traceable Certificate valid for 12 months allowing you to calibrate your own equipment easily in-house or on-site, with a traceable route to UKAS.

TBS1 Water Bath Calibrator is the easiest, lowest cost, means of calibrating food supermarket & logistics thermometers at critical points – supplied with a certificate showing traceability via our test equipment to UKAS

X107 Infrared Calibrator. In exactly the same way as the TBS1 the Infrared Calibrator will calibrate your Infrared Thermometers easily and at low cost.

Just a few of the wide range of calibration options available to you from Tempcon
