Folding Digital Pocket Thermometer FM21

Low-cost, accurate food thermometer for use in catering and food processing environments.

The FM21 pocket size digital thermometer is IP65 rated (water resistant) and ideal for checking core temperatures of food before serving.

Its large LCD and quick response time allow temperatures to be viewed quickly and easily and the fold away probe makes it very compact.

Key Features

- Large LCD
- Quick response
- Long Battery Life
- Folding Probe

FM21

Specification

Measuring Range	-40°C to +250°C
Resolution	0,1°C
Accuracy	+/- 0,5°C (-20°C to 150°C)
Remaining Range	+/- 1% or 1,0°C
Operating Temperature	0°C to +50°C
Protection Class	IP65
Dimensions	116 x 38 x 20 mm
Tube	60 x 3,5 mm
Weight	41.2 g (incl. battery)
