DISCONTINUED: HOBOware Lite Software - supplied on CD

Product Images

Short Description

This software is available as a free download.

Entry-level software for HOBO USB loggers, offering easy logger launch, readout, and data plotting.

Description

HOBOware Lite does not support any of Onset's data assistants or data shuttles.

Launching a logger is easy with HOBOware Lite software.

Launch parameters include:

- · Which channels to record
- Logging interval (1 second to over 18 hours)
- Immediate start, delayed start, start at interval, or triggered (push-button or coupler) start
- Set up linear scaling to user-defined units for 0-2.5V or 4-20mA inputs (U-series loggers only)
- Battery level indication
- Synchronizes logger's clock to computer's clock

Check Logger Status:

- Verify logger set-up before launch
- Verify logger operation while logging
- Display real-time sensor readings
- Display memory used and battery voltage

Additional Information
