

A720 Locking Case

Product Images

Short Description

The A720 Locking case is great for preventing tampering. Often pressure recorders are left in remote areas and not checked for days or weeks at a time. Use a standard padlock or combination lock to prevent unauthorized users from tampering with the unit or downloading the data.

Description

The A720 Locking case is great for preventing tampering.

Often pressure recorders are left in remote areas and not checked for days or weeks at a time. Use a standard padlock or combination lock to prevent unauthorized users from tampering with the unit or downloading the data.

The A720 is compatible with the: PR100, PR300, and PR500 range of Dickson Pressure Data Loggers.
