

Special Thermistor Sensor - Pipe Clamp with Tails or Plug

Product Images

Description

Pipe Clamp Thermistor Sensors

The CS287T thermistor sensor can connect to many instrument types with thermistor inputs. The sensor is supplied with **2 metres of cable** and is terminated to tails.

If you have a larger diameter pipe, or require different cable lengths then we can also custom build a suitable probe for you, just give us a call.

Additional Information

Brand	Tempcon
Maximum Temperature	Thermistor
Maximum Temperature Probe	100
Termination	Bare Tails

Additional Options

Connector Type	2046T plug
	8146T7 plug
	Bare Tails
To Suit Pipe Size	16-22mm
	25-35mm
