

TRACKER 221-2-G Panel Indicator with 4 Digits

Product Images

Short Description

The Tracker 221-2-G Digital Panel Indicator is ideal for Temperature, Weighing, Pressure, and Process Measurement.

Description

The Tracker 221-2-G Digital Panel Indicator is ideal for Temperature, Weighing, Pressure, and Process Measurement.

Based on the Tracker 220 Series: A complete range of 1/8 DIN Digital Panel Indicators with universal inputs and Advanced Maths functions, Alarm Relays, Software Alarms, Digital Status Inputs, Signal Re-Transmission, Sensor Supplies, and Communication functions make the 220 Series ideally suitable for most process applications.

This model Incorporates:

- 4 Digit Display (Green)
- 10V Transducer Supply
- 24V Transmitter Supply
- Sensor Excitation
- RS422/485
- Unit Power Supply: 10 to 32V ac or dc

Additional Information

Brand	Data Track Process Instruments
Display Colour	Green
Display Digits	4
Input Type	Thermocouple, RTD, mA, Transmitter, Vdc
Typical applications	Engineering, Industrial, Manufacturing, Non Specific
Measurements	Event, Pressure, State, Temperature, Weight

Additional Options

Certificates	Certificate of Conformity
	Factory Calibration and Certificate
