JRI SIRIUS Transport Software

Product Images

Short Description

SIRIUS Transport, designed for the supervision of the transport chain.

Description

SIRIUS Transport, designed for the supervision of the transport chain.

SIRIUS Transport allows you to:

- Retrieves data from a recorder remaining in the vehicle
- Configures a transport sheet (type of transport, carrier and addressee details, vehicle registration,

driver's name, stopover, dates etc)
- Marks the delivery stages on the curve
- Manages 2 levels of responsibility: administrator and user
- Controls several SPY RF® ModeM units
- Displays comments on points in alarm state
- Manages local alarms
- Manages and retrieves archived transport documents
- Available in mono-user and multi-user versions.
