

AMS-7002 Moisture Meter

Product Images

Description

This digital moisture meter provides fast and accurate readings of the moisture content of wood, concrete, gypsum and other non-wood materials. The operating principle is to measure the conducting ability of a product and convert it to % moisture content

- 3 Function keys set for wood, concrete, gypsum and other non-wood materials
- Probe connection cable of 1 metre
- RS-232 interface for output to pc
- Optional software for in-depth analysis of measurements

- Memory for Maximum measured values since power on
- Data Hold freezes the displayed measured value
- 30mm LCD display with function indicators
- Auto Power Off after 3 minutes of no activity
- Low Battery indication
- Supplied with probe, 10 pins & carry case
- Supplied with 1 x 9V PP3 Alkaline Battery

Technical Specification

Range	6% to 40% moisture content for wood 0 to 100% relative moisture content for concrete and other non-wood material 0.2% to 50% moisture content for gypsum
Resolution	0.1%
Accuracy	±4% + 5 digits
Power	1 x 9V PP3 Alkaline Battery (ALR-61)
Dimensions	180 x 72 x 32mm
Weight	330g

Additional Information

Typical applications	Building Performance, Environmental (Indoor)
Measurements	Moisture
