

SEM1300 Din Rail Mounted Power Supply

Product Images

Short Description

The SEM1300 is a DIN Rail mounted power supply that provides a regulated 24V DC Output @ 250 mA from an AC supply ranging from (90 - 253) VAC (50 - 60) Hz.

Description

The SEM1300 is a DIN Rail mounted power supply that provides a regulated 24V DC Output @ 250 mA from an AC supply ranging from (90 - 253) VAC (50 - 60) Hz.

The SEM1300 has a lower ambient temperature rise due to its high efficiency and its cool running operation.

Additional Information

Country of Manufacture	United Kingdom
Brand	Status
Input	90 - 253VAC
Mounting Type	DIN Rail
Typical applications	Industrial
