CAL9900 1/16 DIN Temperature Controller (Single Loop)

Product Images

Short Description

The CAL 9900 1/16DIN temperature controller is designed to be easy-to-use and reliable within the most demanding process and manufacturing applications.

Description

The CAL 9900 1/16DIN temperature controller is designed to be easy-to-use and reliable within the most

demanding process and manufacturing applications.

Designed for industrial or scientific applications CAL9900 has an impact resistant smoked fascia with rubberised buttons with positive feedback. PID tuning is simple and efficient whilst the unique dAC function minimises overshoot.

- 1/16 DIN (48 x 48mm)
- Supports Heat-cool strategy
- Auto-tune or Push-to-tune at setpoint
- 5A output relay on main control output
- Dual output versions can plug into 11-pin base

Please Note the Low-Voltage PSU is not available where the 2 Outputs are: REL/REL

Additional Information

Brand	West
Display Colour	Green
Display Digits	4
Input Type	Thermocouple, PT100, Linear, mV
Typical applications	Industrial, Non Specific
Measurements	Temperature

Additional Options

Output Type - SP1	[1]Relay
	[2]SSD
Output Type - SP2	[0]Not Fitted
	[1]Relay
	[2]SSD
Power Supply Options	[1]110vac
	[2]240vac
	[5]24vac
Temperature Units	[C]Degrees C
	[F]Degrees F
