

Replacement DO Sensor Cap

Product Images

Short Description

The Replacement DO Sensor Cap replaces the original DO sensor cap that's included with the HOBO DO Data Logger. The DO sensor caps have a 6-month deployment life. (The caps expire 7 months after initialisation to allow some time before and after the deployment.) The caps have a 2-year shelf-life from the date they were manufactured. (Shelf-life shown on the canisters the caps come in.)
