## Product Images

## Short Description

The ideal 24/7 remote system to monitor temperatures in medical fridges for healthcare retailers such as GP surgeries, veterinary clinics, dental surgeries and pharmacies.

## Description

This easy-to-use system gives you immediate access to real-time data and alerts sent via email or text message to your phone, plus audit-ready reports.

Each of the three included data loggers are placed outside a pharmaceutical fridge and the attached external temperature probes left inserted inside the fridge. Temperature data can be viewed at any time without opening the fridge door on the data logger's LCD screen, the InTemp app, or online on the InTempConnect cloud-based data platform.

## InTemp Healthcare Fridge/Freezer Kit Contains
