

# InTemp CX603 Bluetooth 365 Day Multi-Use Dry Ice Temperature Data Logger

## Product Images

## Short Description

The Onset InTemp CX603 Dry Ice data logger is a Bluetooth Low Energy (BLE)-enabled multiple-use logger that records temperature data for up to 365 days. The CX603's built-in 1.5m probe measures temperatures as low as -95°C (-139°F) and includes a protective sheath to prevent accidental cutting of the cable.

## Description

Using the InTemp® app on your mobile device, you can easily configure the CX603 with one of multiple preset configurations, or set up a custom configuration. The logger has a built-in alarm to alert you to

excursions. And logger reports can be quickly downloaded to your phone or tablet and uploaded to an InTempConnect® account, where you can analyse and export data as needed.

With the optional [CX Gateway](#) device, you can get real-time notifications via email or text of temperature excursions, and automatically download data from loggers within range of the device.

## Key Features of the CX603

- Compact and lightweight – ideal for shipping pharmaceuticals
- Bluetooth means no need to open containers to access data
- Record up to 14,000 data points
- Anti-cut cable sheath
- Three-point ISO/IEC 17025 NIST 'UKAS' Certificate of Calibration, valid for one year from date of purchase
- International Air Transport Association (IATA) compliant battery
- Integrates with mobile and cloud platforms for a 21CFR Part 11 compliant solution
- Secure data via encrypted technology.
