

Portable Foldable Solar Panel 100W with USB & Power Adapter Output

Product Images

Short Description

100W Portable Solar Panel Foldable Solar Charger

Harness the power of the sun with the 100W Portable Solar Panel Foldable Solar Charger. This easy-to-use

and transport solar charger features an impressive 100 watts of power, offering ample energy for a variety of devices.

Designed with convenience in mind, it comes with a 100W 5V USB and 18V DC output, making it compatible with portable generators, smartphones, and various devices depending on your needs. Its foldable design allows for ease of storage and transportation, making it a perfect companion for camping trips, power outages, or any situation where you might need an accessible and reliable power source.

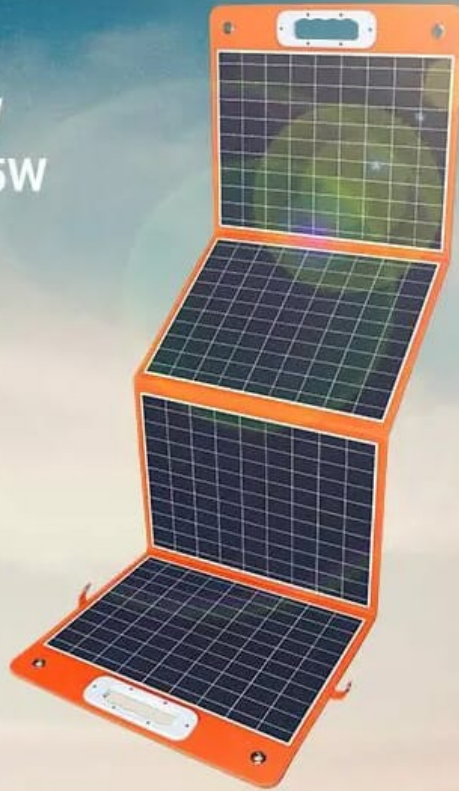

Please note that actual power output may vary depending on sunlight availability. Always follow the manufacturer's instructions for use and safety.

Description

Compact, foldable solar panel, designed with pull-out legs for optimal sunlight exposure and maximum portability. Harness the sun's energy wherever your journey takes you.

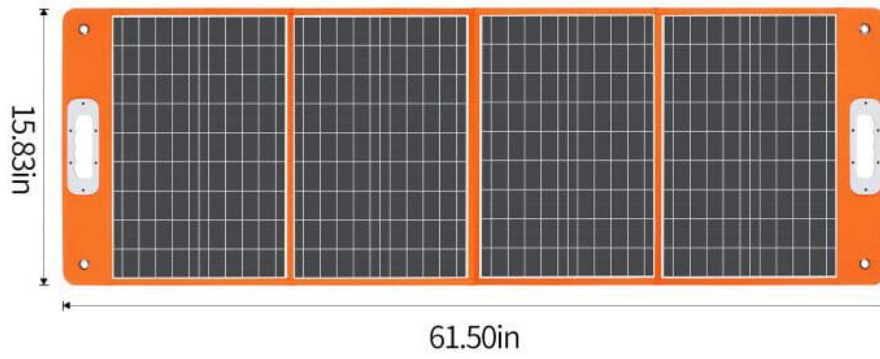

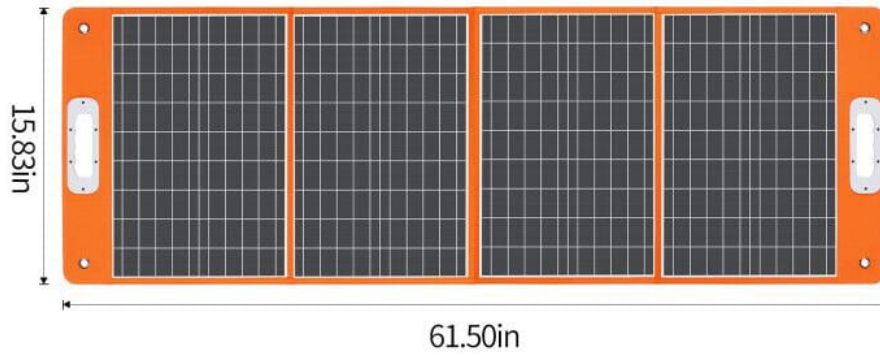

- * DC 18V 100W
- * USB-A QC3.0 18W
- * Type C (USB-C) 65W

Portable & Lightweight: Portable solar panel, featuring a foldable, zip-up case design and a carry handle for effortless transport and storage. Power your devices on-the-go with ease.

Multiple Charging Options: Equipped with a built-in power converter, this device features multiple charging connectors, allowing for easy connectivity and powering of various devices such as phones, laptops, and cameras.

Faster Charging For Your Devices

Faster Charging For Your Devices

USB Sockets: This solar panel offers increased charging versatility. It allows you to charge using both types of USB sockets, catering to a wide range of electronic devices. Its thoughtful design ensures it meets all your charging needs, whether you're using older USB types or the

latest ones.

Solar Power: Harness the sun's energy for on-the-go charging with our solar power solution, ideal for camping trips and beach picnics. Power your portable devices conveniently while basking in nature's glory.

Recharge with Solar Power: Buy one of our Explorer power supplies engineered for solar panel charging, simply connect the solar panel to the default input port (no wiring required). The Explorer will then show the wattage received from the solar panel and, just like your phone, indicate the charge percentage of the device.

Our optional Explorer portable power supply will store the power from a solar panel. Ideal for taking power on the go these units can charge via USB or standard 3-pin plugs.

Depending on the Explorer model you choose you can power equipment rated up to 520W or 1000W.

Portable Foldable Solar Panel 100W with USB & Power Adapter Output

The 100W Portable Foldable Solar Panel with USB & Power Adapter Output is a highly efficient solar charger designed to harness solar energy for powering your devices. With a powerful 100W capacity, this solar panel provides abundant energy to support different types of devices, ranging from portable generators to smartphones, adapting to your diverse power needs.

Designed for convenience and versatility, the unit features a 60W 5V USB and 18V DC output, ensuring compatibility with a variety of devices. Whether you're planning a camping trip, preparing for a power outage, or simply need a reliable power source, this portable solar panel delivers.

Proudly standing out for its foldable design, the imminently transportable device enables effortless storage and transportation, emerging as your perfect companion for on-the-go power needs. The solar charger's actual power output may vary based on sunlight availability. However, it is designed to offer optimal functionality, following the manufacturer's instructions for use and safety.

Benefit from the ease of solar-powered charging with this portable and foldable solar panel, designed to provide efficient and accessible power wherever you are.
